MEMORANDUM FOR: Commander, Intelligence Center Pacific

FROM:

Executive Secretary, Intelligence
Information Handling Committee

STAT

SUBJECT: Intelligence Community Video Disc Draft Standards
and DMA RFP for Video Disc Production

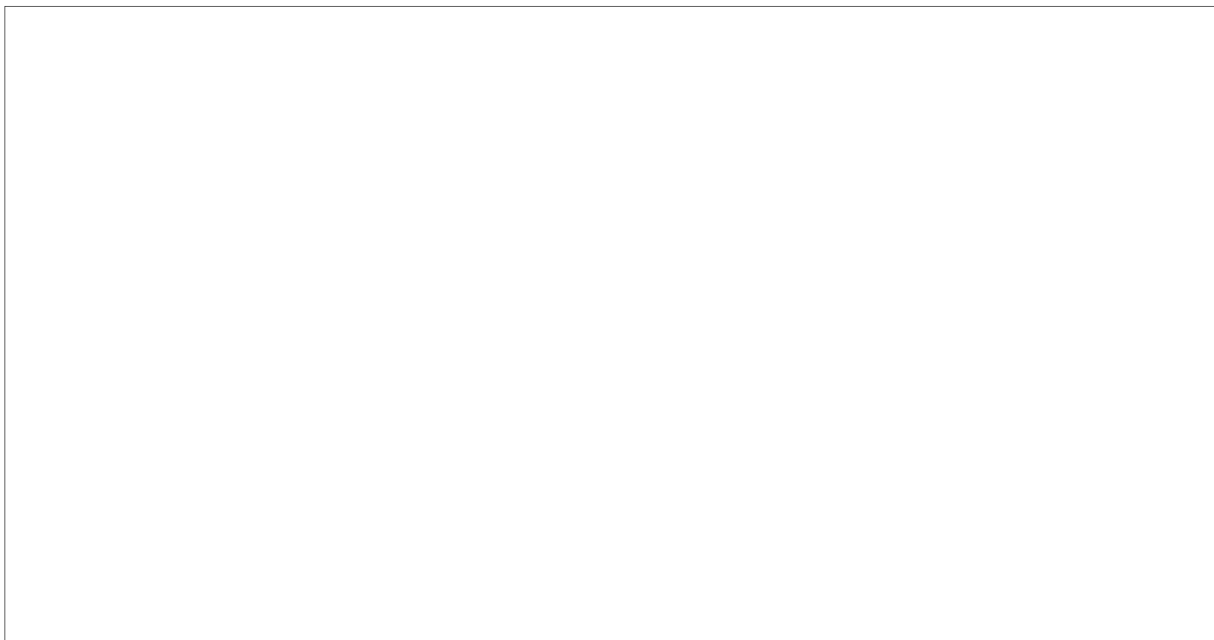

REFERENCE: IPAC Memo No. IPAC/CR/RP; 7000; Ser: 2009,
dtd 26 Dec. 1984, Subject: Same as Above

1. I appreciate your comments on the draft standards and the Defense Mapping Agency's (DMA) RFP which you sent to me per reference memo. They will be considered in revisions to the draft standards and guidelines and to DMA's RFP or contract, as appropriate.

2. I also appreciate receipt of the Terrain Map Display Capability (TMDC) documentation. I found them informative and interesting. Since they reflect some different approaches in the video disc application, I have forwarded them to DMA's Mr. Milton Lohr, who is managing DMA's video disc production effort.

3. The following comments are submitted in response to your letter, paragraphs 2.a. through 2.f., respectively:

STAT

f. Your point is well stated.

4. Finally, a meeting was hosted by DUSD (Policy) in late December 1984 in Augusta, Georgia. At this meeting, the idea was tendered that DMA would be made the Office of Primary Interest (OPI) for defining video disc based mapping standards for DoD. In this regard, all of the IHC's efforts in identifying standards and guidelines will have fully supported DMA, with all appropriate data having been forwarded to DMA. I will keep you advised of further developments on this issue.

5. Again, thank you for your interest in this matter. I look forward to working with you in the future. I may be reached at
